

**Sec. 29-349-349. Cap-sensitive premixed water gels**

Premixed water gels containing no substance in itself classified as an explosive and which are cap-sensitive as defined in Section 29-349-106 of this Code under Blasting Agent shall be classified as an explosive and manufactured, transported, stored, and used as specified for explosives in this Code.

(Effective December 24, 1987)
