

**Sec. 14-78-42. Safety equipment to remain intact**

No motor vehicle shall be used for behind-the-wheel instruction or driver testing if the seat belts, shoulder straps, warning equipment, air bags or other safety equipment with which the vehicle was originally required to be equipped has been dismantled, disconnected, removed or rendered inoperative.

(Effective February 24, 1997; Amended October 1, 2012)
