(1) Substance Abuse Treatment Program (SATP) which is a treatment program housed in the Veterans Recovery Center (VRC) for veterans who have had a substance abuse problem, voluntarily agree to a plan of care and adhere to that plan, and meet all other criteria for admission to the Residential Facility.

(A) A SATP participant may concurrently be designated a participant in the Veterans Improvement Program, Veteran Worker Program, or other specialized programs, activities, or services offered by the Department,

(B) Failure to comply with conditions of the plan of care is basis for involuntary termination in SATP, but may not be the basis of an involuntary discharge from residence in the Residential Facility, unless expressly provided by the plan of care.

(2) Veterans Improvement Program (VIP) which is a rehabilitation program for Residential Facility veterans based on the desire of the veteran to remain in residence or to return to life in the community at large. The three categories shall be:

The program may include:

(i) Each plan of care shall include an occupancy agreement with such terms as may be required, including cost per month or week, conditions of termination, and directions for payment of fees. The Commissioner may reassign any resident in the TLC to a bed in the Residential Facility in the event that the TLC resident fails to comply with any term or condition of occupancy, including loss of full time employment, lack of fiscal responsibility as set in the plan, consumption of alcohol or other substances in violation of federal or state law, or any other activity contraindicated in the plan of care,

(ii) An occupancy may not exceed six (6) months, except upon approval of the Commissioner for an additional six (6) months, if the resident can demonstrate said extension is required by factors beyond his or her control,

(B) Alternative Living Residence (ALR) which is a community residence established by a private owner, municipality, the Department or another state or federal agency for veterans who may be without proper housing and desire minimal contact with the Department, but who may benefit from therapeutic programs, activities or services offered by the Department under the terms of a resident's agreement.

(ii) Any ALR shall comply with all local zoning and building code regulations,

(iii) Any veteran eligible for service from OAA may apply to become a resident in an ALR. No right of admission to the Home attaches to an ALR veteran not otherwise eligible for admission to that facility,

(c) Admission to any program administered by the Department of Veterans' Affairs shall

(d) As a condition of residence and program participation, each veteran shall pay for services rendered to him in an amount based on his ability to pay as determined by the Commissioner or his designee.

(e) Each veteran who is not able to pay the full cost of services rendered shall remain liable for the full amount, minus any payments received, and shall be obligated to make payments on any amount due and owed in the event that he gains the ability to pay during his lifetime or through his estate upon his death.

(Effective January 19, 1996)

**Sec. 27-102l(d)-251. Definitions**

The following definitions apply to veteran billing and payments as described in Section 27-102l(d)-250 through Section 27-102l(d)-299 of the Regulations of Connecticut State Agencies, unless expressly provided otherwise.

(d) “Community spouse allowance” means an income disregard, in addition to his personal need allowance, which a veteran may claim, if legally married, and thereby cause the computation of his ability to pay to be reduced by the lesser of the amount he actually pays to a spouse living in the community or the maximum disregard set in Section 27-102l(d)-257 of the Regulations of Connecticut State Agencies.

(e) “Countable assets” shall be all assets not excluded.

*Department of Veterans' Affairs*

§27-102l(d)-253

(c) Admission to any program administered by the Department of Veterans' Affairs shall not limit the right of the veteran to otherwise manage his financial affairs and the Department shall not interfere with the same, except as provided by law(s), including but not limited to applying to a court of competent jurisdiction for appointment of a conservator of the estate.

(d) The Commissioner may, on behalf of a veteran for whom the Commissioner holds a valid power of attorney, designate a Department of Veterans' Affairs' employee who is familiar with the needs of said veteran to manage the veteran's financial affairs.

(e) In the event the Commissioner determines, based on the recommendation of medical or programmatic staff familiar with the veteran's needs, a veteran may not have the ability to manage his personal affairs, he may apply to a court of competent jurisdiction for the appointment of a conservator of the estate.

(f) The Commissioner, or his designee, shall provide any veteran participating in any program administered by the Department of Veterans' Affairs, information about and assistance with obtaining benefits from all assistance programs for which the veteran may be eligible. When the Commissioner finds a veteran incapable of completing such forms, he shall notify the veteran's personal representative or he may apply to a court of competent jurisdiction for appointment of a conservator of the estate or person.

**Payment and Billing Procedures**

**Sec. 27-102l(d)-254. Liability for services rendered**

(a) Each veteran or his legally liable relative shall be liable for the cost of services rendered, except as otherwise provided in the Regulations of Connecticut State Agencies and state or federal law(s). A presumption shall exist that a veteran can pay in full for all services rendered. The burden is at all times on the veteran to demonstrate that he is without the ability to pay.

(b) Each veteran who requests an application for admission to any program administered by the Department of Veterans' Affairs shall be given notice as to current fees for services requested and a brief explanation of the current billing procedure as described in the Veteran Handbook.

(c) The veteran may request, prior to accepting or being admitted to any program administered by the Department of Veterans' Affairs that the Department make a preliminary determination of his ability to pay. The Department shall respond, if complete information is provided to the Department in a timely manner.

(d) The notice described in subsection (b) shall be given to the applicant's personal representative or any other person requesting the admission on behalf of an incapable veteran. If and when an incapable veteran regains his capacity to manage his own affairs, the notice described in subsection (b) of this section shall then be provided to the veteran.

(e) The notice described in subsection (b) of this section shall include a statement that failure to satisfy the minimum payment due now is grounds for discharge.

(f) Ability to pay shall not be a factor considered in the admission decision process undertaken by the Commissioner or his designee.

(Effective January 19, 1996; Amended October 11, 2007)

**Sec. 27-102l(d)-255. Billing statement**

(a) In accordance with the published billing procedures and process as stated in the Veteran Handbook and admission application, the Department shall issue a monthly billing

statement to each veteran admitted to the Home for each month while in residence. The monthly billing statement shall contain:

- (1) Name of the veteran,
- (2) Case number,
- (3) Period of billing,
- (4) Date prepared,
- (5) Payment due date,
- (6) All transactions, including charges, credits and receipts, including advanced payments if any,
- (7) Minimum payment due now, and
- (8) Delinquent Accounts Receivable.

(b) The delinquent Accounts Receivable may remain unpaid until the veteran's ability to pay can accommodate payment in full or in part. In the event a veteran gains the ability to meet his delinquent Accounts Receivable or if the veteran dies, the delinquent Accounts Receivable shall become due and owed immediately by the veteran or his decedent estate. The department shall initiate collection to the maximum extent allowable by law and in accordance with the published policy on billing provided to each veteran upon admission.

(c) A veteran may make advanced payments in any amounts.

- (1) Any advanced payment by the veteran shall be credited to the account of the veteran.
- (2) Advanced payments shall be refunded to the veteran to the extent that the payments exceed any incurred liabilities based on services rendered.

(3) Advanced payments shall be refunded to the estate of a deceased veteran to the extent that the payments exceed any incurred liabilities based on services rendered, minus any expense the Department may incur to inter the decedent as may be allowed by a probate court or a pre-burial funeral contract.

(d) The Department, in its discretion, may decline to readmit a veteran whose account was not in good standing at the time of his most recent discharge. The Department may treat the veteran's account as an account not in good standing following such a readmission, unless the veteran has paid the amount due and owed in full, and any amount due and owed before the most recent discharge shall be included on the veteran invoice and monthly billing statement, if not paid in full prior to the readmission.

(e) In the event a veteran dies owing any money for services rendered, the full amount, including any delinquent Accounts Receivable and current or past due amounts, shall be subject to recovery in accordance with Section 27-102l(d)-272 of the Regulations of Connecticut State Agencies.

(f) In the event a veteran's account is deemed as "not in good standing" due to a past due amount, the Commissioner may reduce the veteran's personal needs allowance in determining the veteran's ability to pay and increase the minimum payment due until such past due amount is reduced to zero, unless the veteran is otherwise entitled to receive such an allowance.

(g) In the event that a veteran's account is deemed as "not in good standing", the

Commissioner or his designee may take appropriate disciplinary action up to and including involuntarily assignment of income or involuntary discharge.

(Effective January 19, 1996; Amended October 11, 2007)

**Sec. 27-102l(d)-256. When the ability to pay is determined and redetermined**

(a) Within thirty (30) days after being admitted to any program administered by the Department of Veterans' Affairs, the Commissioner or his designee shall determine the veteran's ability to pay.

(1) The ability to pay shall be redetermined from time to time as the Commissioner may determine.

(2) The Chief Fiscal Officer may investigate any change of circumstance in a veteran's ability to pay based on information that a veteran's income or assets, both real or potential, have increased or decreased.

(3) A veteran subject to an investigation under subdivision (2) of this subsection shall:

(A) Confirm or deny the information as presented by the Chief Fiscal Officer,

(B) Provide an accurate statement of the current status of his income and assets, and

(C) Cooperate with the Chief Fiscal Officer or designee in the investigation and subsequent actions to make any such income or resource available.

(b) The ability to pay may be redetermined at any time upon a change in circumstances related to the veteran's ability to pay. A redetermination may be requested by the veteran at any time, subject to the Commissioner finding reasonable grounds to grant such.

(1) The veteran shall be required to give immediate notice to the Department of reductions or increases of income or assets, including but not limited to, inheritance, gambling, or other lump sum payments, or U.S. Department of Veterans Affairs benefits, pensions, insurance proceeds, and Social Security.

(2) Upon application from a veteran, the Commissioner may reduce the veteran's ability to pay, therefore deferring immediate payment but not reducing overall liability.

(c) The determination of the ability to pay shall yield a monthly amount that is the minimum payment due now up to the total amount of the veterans' liability for all services rendered by the Department.

(1) The Commissioner shall not demand payment of the amount of the fee for services rendered that exceeds the minimum payment due now in any month, but shall maintain a delinquent Accounts Receivable for future collection.

(2) In the event a veteran has become eligible for payment under the Medicaid program and resides in a setting that qualifies for participation in that program, the receipt of the veteran's applied income, reimbursements received on behalf of the veteran, and the Medicaid payment shall constitute payment in full of services rendered.

(A) No additional delinquent Accounts Receivable shall accrue against the veteran's account for services that shall be covered by participation in the Medicaid program.

(B) If eligibility is granted retroactively, the date of Medicaid eligibility shall be used when adjusting the delinquent Accounts Receivable.

§27-102l(d)-258

(C) Becoming eligible for Medicaid shall not affect any recovery against the estate of a deceased veteran as may be allowed by the Department of Social Services or the Department of Veteran's Affairs or any other state agency.

(Effective January 19, 1996; Amended October 11, 2007)

**Sec. 27-102l(d)-257. How the ability to pay is determined**

(a) In accordance with Section 27-102l(d)-250 of the Regulations of Connecticut State Agencies, the veteran and any other person as described in Section 27-102l(d)-250 of the Regulations of Connecticut State Agencies, as a condition of admission or continued participation of the veteran, to cooperate with the Department and provide such information as is necessary for the Department to determine the veteran's ability to pay.

(b) A veteran's ability to pay is determined by combining all of his assets and his total monthly income, from all sources, and comparing the combined amount with the charge for his care, as determined by the Department pursuant to Section 27-102l(d)-258.

(Effective January 19, 1996; Amended October 11, 2007)

**Sec. 27-102l(d)-258. Determination of charges**

(a) For any program administered by the Department of Veterans' Affairs, the per diem charge or fee shall be inclusive of all services provided to the veteran in that program on that day, unless that service is billed separately as declared by the Commissioner each year when publishing the various rates for each program. The applicable per diem fee depends upon whether the veteran resides in the Health Care Facility or in the Residential Facility.

(b) The daily charge for Health Care Facility residents, who have been determined to be eligible to participate in the Medicaid program, shall be equal to the Title XIX Medicaid rate that is set annually by the Department of Social Services for purposes of administering the Medicaid program. Residents are charged monthly based upon the applicable daily charge and the number of days in the month. The resident is obligated to contribute his monthly applied income toward the applicable charge, with the balance of the monthly charge being accepted by the Facility in the form of payment from the Medicaid program. The resident's applied income for purposes of this subsection shall be equal to his total monthly income from all sources minus any deductions that are allowed by the Department of Social Services for purposes of determining the patient's liability to contribute his income towards the cost of care, including but not limited to, the monthly personal needs allowance that is allowed by said Department, minus an additional ninety dollars per month that is allowed by the Facility as a veteran allowance. In accordance with the provisions of 38 U.S.C. § 1741(e), per diem allowances that are paid by the United States Department of Veterans Affairs are not counted as income to the resident and are not counted as a third party payment that reduces the Medicaid payment amount.

(c) The daily charge for Health Care Facility residents, who have not been determined Medicaid eligible to participate in the Medicaid program, shall be equal to the daily per capita cost of providing care at the Health Care Facility, as determined by the State

Comptroller annually. Residents shall be charged monthly based upon the applicable daily charge and the number of days in the month. Per diem allowances that are paid by the United States Department of Veterans Affairs on behalf of the veteran shall be applied towards the charge to the resident.

(d) Residential Facility residents shall pay a monthly charge which is equal to the amount of the per diem allowances that are paid in the month on behalf of the resident by the United States Department of Veterans Affairs pursuant to 38 U.S.C. § 1741, plus an additional amount that the veteran is required to pay from his other own resources, which additional amount shall be set by the Facility, approved by the Board of Trustees of the Veterans' Home, and published by the Department in its Veteran Handbook.

(Effective January 19, 1996; Amended October 11, 2007)

**Sec. 27-102l(d)-259. Third party benefits**

(a) The Department may execute and maintain agreements with other public agencies and private entities to participate in reimbursement programs, including but not limited to Titles XVIII (Medicare) and XIX (Medicaid) of the Social Security Act and the United States Department of Veterans' Affairs.

(b) Each veteran, who the Commissioner determines may be eligible for reimbursements from a third party insurer or governmental program, is obligated to provide necessary information and fully cooperate with the Department in the application for and maintenance of such income, reimbursement or benefit. Failure to comply with this subsection shall be grounds for involuntary assignment of income and assets or involuntary discharge.

(c) For any program administered by the Department of Veterans' Affairs for which the Department is a Medicaid provider, and for the purposes of determining order of liability, the state Department of Social Services, through the Medicaid program, shall be "payor of last resort" and all other payment sources shall be exhausted before any bill is presented to the Department of Social Services.

(d) For any program administered by the Department of Veterans' Affairs for which the Department is a Medicaid provider, and in the event that a portion of the regulations of Connecticut state agencies is in conflict with the Department of Social Services' Uniform Policy Manual, as amended from time to time, the Department of Social Services regulation shall prevail.

(e) The veteran shall, or shall cause his representative to, promptly file and claim income, assets and reimbursement due, and owed, or available to the veteran for payment of or reimbursement of expenditures made on his behalf or which may be claimed for services rendered to him. Sources covered by this subsection include, but shall be not limited to private insurance, a trust or any other arrangement under which the veteran is or could be a beneficiary, whether specifically named or not.

(f) The veteran shall cooperate in any action, including making application, or preceding that can or may be brought for the purpose of making the veteran's income, asset or reimbursement available to meet the costs of his care. In the event that the veteran refuses

(b) Any portion of the minimum payment due remaining unpaid after twenty (20) days of presentation of the Statement of Account to the veteran, or his personal representative, shall become past due.

(c) Any account with an amount past due shall be deemed as an account "not in good standing," unless the veteran or his personal representative can demonstrate to the Commissioner that circumstances beyond the control of the veteran or his personal representative led to the amount past due.
