

**Sec. 16-11-65. Meter installation**

(1) Meter installed out of doors shall be so located as to be accessible to the utility's distribution line for proper service connection and so far as practicable the location should be mutually acceptable to the customer and the utility. The meter shall be installed so as to be unaffected by climatic conditions and reasonably secure from injury. Meter pits shall be owned and maintained by the property owner.

(2) Meters installed inside the customer's building shall be located as near as possible to the point where the service pipe enters the building and so as to be reasonably secure from injury and readily accessible for reading and testing. In case of multiple dwellings, such as two-family flats or apartment buildings, the meter shall be located within the premises served or in a location accessible to the customer and the utility.

(Effective October 18, 1966)
