

Sec. 20-300b-1. General

There are many types of surveys. Choice of a *survey type* is made relative to the intent and purpose for which the survey is to be used. The *survey type* is intended to classify these criteria. When a map is prepared, the *survey type* shall be stated in the title of the map. A prominent note stating the standards to which the survey was prepared, the applicable Class or Classes of Accuracy, the Type or Types of Survey, and the Boundary Determination Category or Categories shall be included on the map.
