

Sec. 20-300b-5. Right of way survey

(a) A Right of Way Survey is a type of survey which maps the limits of existing or proposed highways or public utility transmission easements, including the mapping of parcels to be acquired for such purpose(s), as referenced to an established baseline. The baseline to which the highway, easement or acquisition lines are referenced shall be a traverse line, project centerline or construction baseline, any of which shall be monumented or specifically tied to permanent reference markers and shall comply at a minimum with Horizontal Accuracy Class A-2 as defined in Section 20-300b-11 of these regulations and monumentation requirements defined in Article III of these regulations.

(b) Highway or easement lines may be deed, occupation, notification or acquisition lines; shall be noted accordingly; and may be monumented.

(c) The features depicted on the mapping may be the result of aerial photogrammetric or field location surveys performed for project planning purposes or may be compiled from various sources. All pertinent sources shall be noted. The method of determining the position of property lines depicted shall be noted as shall the appropriate Horizontal Accuracy Class.
