specifically designated by the Commissioner of Consumer Protection in accordance with section 21a-243 of the Connecticut General Statutes.

Statement of Purpose

The purpose of this regulation is to designate new substances to the controlled substance list as required by Public Act 25-101, Section 4. This new law requires the Commissioner of Consumer Protection to designate the substances added to subsection (i) of that section as controlled substances and classify each such substance in the appropriate schedule. Since such substances currently have no medical use, pursuant to the Federal Drug Administration (FDA), and may not be prescribed or dispensed by a medical professional, the Department of Consumer Protection proposes this regulation to place the substances in schedule 1. However, if any of the substances are rescheduled by the FDA, this regulation contains an existing provision in subsection (g) to adopt the schedule determined by the FDA.
